

ADITYA VIJAY

Hello!

I'm Aditya, a fourth-year architecture undergraduate student at the School of Planning and Architecture in Bhopal. I chose architecture as my major since it is a multi-disciplinary field that touches nearly every aspect of human existence.

Here's a collection of some of my work over the last three years. Each project has been a new challenge and experience for me, and I hope you like my work as much as I enjoyed creating it!
