

1 about me.

PS

Parth Solanki

“ **We do not build structures, we build a lifestyle**” is the motto I go by. As architecture students we are taught that a design which is **human centric**, which brings out the emotions out of the users is a good design. In reality keeping the **cultural and local fabric** is equally important to make a complete design.

I see **architecture as a “black and white image”**, it is always the greys that make the image a whole. Similarly in architecture the mere small details, the little things are what make the design a whole.

Cover letter

Respected Sir / Ma'am,

I, Parth Solanki am pleased to be applying for the Intern position, as I am certain that my qualities can be a great addition to your team. What is more, I believe that it would be the opportunity of a lifetime for me to learn new things, further develop my expertise, and grow both personally and professionally.

During my previous semesters, I have worked on individual as well as group projects and these projects have shaped me to become a great team player and taught me how to function well in fast-paced and deadline-driven environments.

Moreover, in my college, I also served as a head of the Art Installation Team (2020), Sub-Head of the Art installation Team (2019), and a member of the Student Council and in addition to this I was also the founder of a clothing brand "SUBTL" this valuable experience has played a crucial role in the development of my leadership qualities, teamwork qualities and also tested my creativity to think outside the box.

On top of my education, I worked as an Intern at Arth Interiors. There, I was given the responsibility for 3D-Visualisation of the interior design project. Additionally, I have interned as a fundraiser in Muskurahat Foundation. There is was responsible for collecting funds for the underprivileged children. I also worked as a digital Marketing intern at Hamari Pahachan NGO

Yours sincerely,

Parth Vinay Solanki
