

JATIN KUMAR

Architecture student, School of planning and architecture , vijayawada, Andhra pradesh.

An outgoing person, Love to explore. A quick learner and observer. My passion for architecture and design grew from a very early age. I believe in the importance of Preserving and embracing our architectural past whilst re-animating buildings and overwriting with a contemporary layer of our own time. I am very much fond of exploring new cultures and places, Visiting old cities and meeting new people.
